Tiger Premier & Elite Braille Embossers

High-Volume Braille Production
-Now With Tiger Graphics
- High-speed braille along with Tiger super-high-resolution graphics
- Automatic double-sided embossing—no flipping the paper
- Production-strength hardware made for running long hours
- Compact desktop size—smaller than most production embossers

Get the quality and reliability expected with a heavy-duty braille production unit along with the added benefit of Tiger graphics—the most detailed raised graphics available from any braille embosser. Create an entire braille book, complete with double-sided braille text and tactile graphics, all with the touch of a button.

Purchase price includes a license for the Tiger Software Suite for braille translation, tactile graphics design and more. Tiger embossers are also compatible with Duxbury and other braille and tactile graphics software.

New Tiger Braille Dot!
The Tiger Elite/Premier series incorporates the newly redesigned Tiger Braille dot. Tests prove the new dot is improved for readability, yet maintains Tiger’s unmatched detail in producing tactile graphics.

Premier 80 $9,995
