

Vision. Reinvented.

Prodigy™

## The groundbreaking, touch-controlled 2-in-1 Personal Vision Assistant has arrived!

Prodigy is the first Personal Vision Assistant that is both a desktop and handheld magnifier, plus so much more. HumanWare has reinvented the electronic magnifier to bring you a vision and reading system that is:

Simple | Intelligent | Adaptable | Portable

**Humanware™**  
see things. differently.

# A breakthrough for people with vision loss: a desktop and a portable tablet in one

## It's simple

Prodigi has no confusing knobs and dials, and no clumsy X/Y table. Its *Touch and Tap™* controls are easy to learn and hard to forget. Just place your document and tap to zoom in and start reading with your preset magnification, enhanced contrast and reading mode. Prodigy uses the same touch controls for the desktop and portable tablet, so it's simple to use, at home or away.

**No X/Y table**  
**No need to move your page!**

## It's portable

The Prodigy Duo is the first HD all-digital magnifier that is both a desktop and a portable tablet. Simply detach the tablet and take it wherever you go... to the couch or bed, store or restaurant, **ANYWHERE!**

**Capture new materials, or take cherished photos or important documents with you.**

Ingredients:  
Concentrated  
milk, disodium  
phosphate, sodium  
ascorbate...

Unlimited vision.  
Unlimited independence.  
Just a touch away.

Diamond Edge Text™

## It's intelligent

Prodigi's *Diamond Edge Text*™ can be magnified infinitely without compromising image quality. See images in full color and Diamond Edge Text in enhanced contrast! Or enjoy effortless reading with Prodigi's many reading modes and smooth flowing text that you can magnify, speed up, slow down or even go back, all without moving your page. And Prodigi can even read aloud if you prefer to sit back and listen!

WITH Diamond Edge Text

WITHOUT Diamond Edge Text

## It's adaptable

Right out of the box, the Prodigy Duo's built-in tutorial guides you through the optimal reading preferences for your unique vision needs. Whatever size, color, contrast, orientation, or speed, Prodigi adapts to you.

Best of all, your preferences follow you wherever you go.

### Effortless reading

Focus more on what you are reading, not how you are reading it.

Read more of what you like, and for a longer time.

Avoid dizziness or motion sickness from moving your document under the camera.

Get the information you want more quickly with less re-reading and positioning.

Stay comfortable: don't tire your arms with an X/Y table or a touch screen.

### Different options to meet your needs

#### TABLET

5-inch portable HD magnifier and reader with touch screen

#### DUO

All-digital magnifier and reading system with detachable Tablet and a 20" or 24" monitor

#### DESKTOP

All-digital magnifier and reading system (20" or 24") without the Tablet
